STINGRAY® *Boats*

Legendary Performance, Unsurpassed Since 1979.

Stingray Boats began over 45 years ago with two molds, a few skilled craftsmen, and a passion to build great performing boats. That passion has endured and continues today. Boatbuilding is not just a business here at Stingray; it's a part of who we are. Building lifelong memories one boat at a time!

Stingray is a privately owned, family-run company that focuses on building quality, not quantity. We also provide our customers with the assurance that they are getting the most boat for the best price. This has been the driving force of Stingray for over four decades and has provided us with the honor of having two-time, three-time, and even four-time Stingray boat owners. It is this loyal following of families who love boating that will continue to drive our passion to keep building great boats for many years to come.

At Stingray, we know that our customers lead busy lives and want to make the most of their free time and money on the water. With that in mind, we take advantage of our performance history and the current market trends and combine that with our passion for building great boats. **Stingray's motto is quality and legendary performance that has been unsurpassed since 1979.**

ENVIRONMENTALLY RESPONSIBLE

Being a leader in technology is more than just a philosophy — it's a commitment designed to help ensure the preservation of our natural resources for generations to come. At Stingray, fuel efficiency, waste reduction, recycling, and reduced stacked emissions are not just buzzwords — they are measured goals of each employee. Our commitment goes beyond that which is mandated or regulated — it is an internal philosophy to do our part to protect the environment for future generations. Consider a few of the things that we are doing to protect our planet:

USE OF FOUR-CYCLE ENGINES: Stingray uses only three-star rated, four-cycle engines, which are the cleanest and most fuel-efficient available for marine use. Better fuel efficiency translates into less fuel consumption. Three-star engines can be 4x to 10x cleaner than two-cycle outboards, which means less pollution to our environment.

OZONE-FRIENDLY FLOTATION FOAM: Stingray uses non-ozone deleting flotation foam by FSI EPA Approved. It is free of chlorofluorocarbons — gases that are depleting the Earth's ozone layer. Ask about the use of zero-ozone deleting (zone 3) foam when considering boating brands.

LOW VOC GELCOATS AND RESINS: Stingray was the first boat manufacturer to convert to the use of low styrene laminating resins and gelcoats. The combination of these low VOC materials, coupled with the latest in low-pressure, high-temperature spray equipment, has reduced Stingray's VOC stacked emissions by over 55%.

WASTE REDUCTION / RECYCLING: Stingray has a recycling program for most waste materials including, but not limited to, cardboard, composites, aluminum, pallets, and metal drums. In cardboard alone, Stingray recycles over 163,000 pounds per year.

COMMITTED: We want Stingray owners not only to have fun on the water but also to know that they are helping protect the environment at the same time.

FINANCIALLY SOLID

With Dun and Bradstreet's highest credit rating, Stingray is one of the most financially solid manufacturers in the industry. Stingray dealers and customers can depend on strong support for years to come. We are proud of our debt-free status — a claim that few builders can make!

VALUE & QUALITY-ORIENTED

As one of the founding members of the American Boatbuilders Association (ABAboats.com), Stingray is in excellent company with Bryant, Chaparral, Formula, Grady-White, MasterCraft, Monterey, Nautique, Regal, Sportsman, Tiara Yachts, and Tigé. This is another assurance that you are receiving the highest quality materials available at the best possible price. ABA members pool their expertise and resources to purchase only the best products and services available.

Z-PLANE HULL DESIGN

The Stingray Z-plane hull is unparalleled in the industry. It is up to 30% more efficient than other boat hulls. Developed on a CAD (Computer-aided Design) system, the hull design is unlike competitors' add-on lifting strakes. Stingray Z-planes act as horizontal planing faces when submerged; when very near the water's surface, the outside edge acts as a spray release, passing through the water with no bubbles or vortices. The smooth flow of water allows the propeller better bite during straight-line speed and hard cornering maneuvers. Extending beneath the swim platform, the design allows for quicker planing and three-point contact with the water at faster speeds. This combination results in a quicker hole shot, industry-leading top-end, and smooth handling at all speeds.

TECHNOLOGY DRIVEN

For the past four decades, Stingray has pioneered many of the advances of technology in the boat building industry. Equipment and tools that were not available just a few years ago are now the mainstays that enable Stingray to achieve unparalleled precision and efficiency (i.e., computer-aided designs, multi-axis 3D milling machines, water jet cutting machines, and CNC routers).

COMPUTER-AIDED DESIGN AND MANUFACTURING: Every Stingray begins as a three-dimensional computer model. We “build” the boat on-screen and carefully scrutinize each component for size and fit, making all of the necessary adjustments before we ever commit the design to fiberglass. We even use a virtual human to check for legroom and headroom — and to be sure that all of the controls are located comfortably within reach. The information from this 3D model is sent to the next step in the process: 3D milling.

MULTI-AXIS 3D MILLING MACHINE: With information available from a 3D computer model, milling machines can produce a full-size model in a matter of hours — a task that would take weeks otherwise. With unequaled precision, the running surface of the hull is cut to the exact specifications. Our master craftsmen then provide the mirror finish that is a hallmark of Stingray quality.

ROBOTIC LAMINATION FACILITY: In our lamination building, a custom-designed overhead rail system was developed just for Stingray. Parts under construction are moved from one bay to the next for layup and curing. This system also keeps track of our in-process fiberglass parts while optimizing mold usage and improving productivity. Process automation also increases worker safety, helps maximize efficiency, and improves quality.

WATER JET CUTTING MACHINES: Many parts on a Stingray are cut using one of our high-pressure water jet machines. A stream of water no thicker than a human hair slices quickly and neatly through a variety of materials much easier than could be done by hand. Materials such as sea grass, foam, vinyl, canvas, rubber, and fiberglass are quickly transformed into precision quality parts.

CNC ROUTERS: Computerized numeric-controlled routers are used to cut various sheet goods into high quality parts. The computer allows us to “nest” a group of parts efficiently to minimize waste. Because the process is computer controlled, each part is dimensionally identical from one run to the next and can be finished much faster and less expensive than those produced by hand.

CE CERTIFICATION: Stingray competes on a global scale and has dealerships located throughout the world from the Middle East throughout Europe and Asia. Stingray boats destined for these countries must meet stringent standards prescribed by the Consultants Europe (CE) and bear the CE mark.

NMMA/USCG CERTIFICATION: All Stingray boats meet or exceed National Marine Manufacturers Association (NMMA) and U.S. Coast Guard (USCG) certification requirements for safety, such as horsepower, load capacity, steering, fuel systems, compartment ventilation, navigation lighting, and backfire flame control.

CSI AWARD: Annually, the Marine Industry CSI Awards program honors participating manufacturers that actively measure customer satisfaction and pursue continuous improvement to better serve the consumer. This measurement is based on responses provided by customers purchasing a new boat and/or engine (more than 155,000 last year alone). Over the years, Stingray has acquired numerous CSI awards for achieving and maintaining an independently measured standard of excellence of 90 percent or higher in initial customer satisfaction over an annual award period.

WARRANTY

Every Stingray boat is backed by a comprehensive warranty for peace of mind.

LIMITED LIFETIME TRANSFERABLE STRUCTURAL HULL WARRANTY: Stingray Boat Co. (hereafter “STINGRAY”) warrants the HULL against structural defects in material and workmanship for a period of ten (10) years from the date of purchase or eleven (11) years from the date of manufacture, whichever period elapses first. The warranty provided in this section is to the original retail owner only and applies only if the boat is purchased from an authorized STINGRAY Dealer. During the warranty period described above, STINGRAY will repair or replace, at its option, the fiberglass HULL if it is unfit or unsafe for general use as a pleasure craft under normal conditions and, in Stingray's discretion, is determined to be structurally defective in material or workmanship. For purposes of this warranty, the HULL is defined as the part of the boat in contact with the water when at rest. The warranty provided in this section is subject to all limitations and conditions contained herein. The remaining term of this HULL Warranty, up to five (5) years, may be transferred to the second owner if, within 60 days of purchase, the new owner registers the transfer with an authorized STINGRAY Dealer and pays a seventy-five US dollar (\$75 USD) transfer fee. Visit stingrayboats.com/transfer for further details on transferability.

3-YEAR LIMITED OSMOTIC HULL BLISTER WARRANTY: STINGRAY warrants against hull blistering caused by osmosis that is discovered and reported to STINGRAY during the first 3 years of ownership (subject to the prorated schedule below). The warranty provided in this section applies to the original retail owner only and is VOID if the original factory gelcoat surface has been altered by excessive sanding, scraping, sandblasting, or accident repair. A marine barrier coating with proper surface preparation is required if the boat is bottom painted or if the boat is left in fresh or saltwater for more than 60 days in any 90 day period. In the event of osmotic blistering, STINGRAY will, at its option, repair or cause to be repaired any hull damage and apply a layer of marine barrier coating to the affected surface area(s). Osmotic hull blisters are defined as those blisters, larger than one-eighth inch in diameter and with a depth greater than one-sixteenth inch, which occur on the hull below the waterline. Repairs will be performed (at STINGRAY'S discretion) by the selling dealer, a designated service center, or the STINGRAY factory. The following prorated schedule of parts and labor will be covered by STINGRAY: Blistering discovered and reported to STINGRAY less than one (1) year from date of purchase - 100%; between one (1) and two (2) years from date of purchase - 66%; between two (2) and three (3) years from date of purchase - 33%. All osmotic hull repairs must be pre-approved by STINGRAY prior to any work being performed. Transportation cost is the boat owner's responsibility. Reimbursement shall be limited to one repair, not to exceed eighty US dollars (\$80 USD) per foot of hull length resting below the waterline prior to prorating.

1-YEAR LIMITED GENERAL WARRANTY: STINGRAY boats are warranted to the original owner to be free of defects in materials or workmanship for a period of one (1) year from the date of purchase (not to exceed two (2) years from date of manufacture) subject to all limitations and conditions contained herein.

WARRANTY INFORMATION: All Stingray warranties are limited warranties within the meaning of Title 1 of the Federal Trade Commission Improvement Act. A full statement of coverage, terms, and conditions applying to the Stingray warranty has been furnished to all dealers. In addition, information is supplied with each new boat. Please read carefully the terms and conditions provided in Stingray's Express Limited Warranty accompanying the sale of your boat. The actual length of warranty coverage for your boat may vary depending on the date of original manufacture and sale date of your boat.

182SC

DECK BOAT

FUN TO DRIVE

The 182SC Deck Boat -- you won't believe this boat until you take it for a test drive. Not only is it just plain fun to drive, but it's also almost effortless. Seasoned boaters and first time boaters alike remark at how easy and fun the 182SC is when they try it out for the first time. In addition to its fun factor, the 182SC is loaded with storage, has plenty of room for all your passengers, water toys, and supplies, and it proves to be very functional. Seating is abundant. The stern area features wrap-around seating for your passengers to stretch out and enjoy the ride. Opposite the captain's chair is a rear-facing lounge so your co-captain can keep an eye on your tubers and wake boarders. See your local dealer today to reserve your 182SC. You don't want to miss out on the fun!

DECK BOAT

FALL IN LOVE

This 20' 1" deck boat has quickly become one of the most popular models in our line. While it is clearly built for fun, its thoughtfully engineered interior and abundant storage compartments throughout enable you to bring a whole group of friends and lots of gear along to take full advantage of the fun factor. Take a look at the photo gallery, then contact your local dealer to schedule a test ride. If you're looking for a moderately sized deck boat with the easy maintenance of outboard power, we are confident that you'll fall in love with the 192SC.

212SC

DECK BOAT

A BREATH OF FRESH AIR

Bring the kids, bring the friends, bring the tubes! The 212SC, STINGRAY's largest deck boat at just under 22 feet, is a breath of fresh air to the deck boat marketplace. In true deck boat style, the spacious floor plan is maximized with an open floor plan. The onboard changing room can double as a head compartment with the addition of the optional porta potti option. Hidden storage in the side-entry steps, beneath the seats, and below the cockpit floor provides plenty of room to store the necessities, leaving more room in the cockpit for friends and family. The service friendly outboard combined with the full fiberglass floor liner makes any type of maintenance a breeze. The 212SC's superb handling and smooth ride will make every person in the boat want to take their turn at the wheel. Let's go boating!

THE MODEL YOU'VE BEEN WAITING FOR

Our 173CC center console is an exciting model built with our revolutionary Z-Plane hull ideal for all of your on the water adventures. There's plenty of room for crew and gear onboard, including a cooler/storage box with overboard drain, under-seat bow storage, and an aerated livewell aft. At the helm, there's a wide leaning post with comfortable seating, a 12V plug and dual USB ports at the dash, power trim and tilt, and a deluxe stainless steel steering wheel. The 173 also has SS rod holders, aft ladder, pull-up cleats and optional ski tow cage. And for assistance with storage, the windshield is completely removable.

206CC

CENTER CONSOLE

ENJOY A DAY OUT WITH THE FAMILY

The 20-foot 206CC is a center console fishing boat and family deck boat rolled into one. The versatility alone makes it perfect for families with varied on-the-water interests. For the anglers, a low profile design makes it easy to navigate in low clearance areas, a helm seat for two has an adjustable seat / leaning post for fishing, a clean dash design leaves room for GARMIN electronics, the main helm seat lifts to reveal a conveniently located 26-gallon live well, and the forward bench offers an 18-gallon cooler that can be upgraded to a live well. For a day out with the family, it offers lots of space for maneuvering about, plus seating for nine passengers. To ensure that none of the deck area is cluttered when headed out for a day on the water, STINGRAY designers effectively made use of all the space on board to incorporate lots of storage areas around the boat.

SOMETHING FOR EVERYONE

Whether fisherman or family, this boat offers a little something for everyone. Let's start with the anglers. The first thing you will notice is all the rod holders — twelve are standard, not including the molded-in rod storage in the gunnels. Add the optional canvas t-top and you get eight more. The bow cushions can be removed and the rear seats folded down to serve as bow and stern casting platforms. A bow fishing seat and pedestal is optional. At the helm is a leaning post, 74-quart Engel cooler, real tempered glass windshield, and a large flat space for GARMIN electronics. A 14-gallon stern live well is standard, and the front bow cooler can be upgraded to a second live well. A trolling motor mount and harness are also optional. The optional raw water wash-down, along with a self-bailing cockpit and optional seagrass flooring, makes cleanup a breeze at the end of the day.

CALL YOUR FISHING BUDDIES NOW!

While the 236CC is designed for use as a coastal fishing boat, it's really a multi-purpose boat that can be used for a multitude of activities -- pulling kids on a tube, cruising to dinner, or just a leisurely ride along the waterways. Most noticeable, as you approach the 236CC, is the leaning post, outfitted with custom molded flip-up bolster seats and a 74-quart Engel cooler beneath, and the optional T-top. These features alone set it apart from its little brothers. Add a few options and this boat is ready for some coastal fishing. Go ahead and call your fishing buddies now!

OUTBOARD POWER WITH OPEN LAYOUT

Do you love the open layout you get from a traditional deck boat but miss the full windshield of a standard bowrider? With the 191DC, you get the best of both. It has all the interior room and storage space of our very popular 182SC Deck Boat, but incorporates a full windshield to shield your passengers from the wind. Like other STINGRAY models, the 191DC features deep cockpit and bow areas for extra safety and security when underway. STINGRAY deck boats feature outboard power for ease of maintenance and large swim pods flank each side of the engine to make boarding a breeze.

259DC

DUAL CONSOLE

THE MEMORY MAKER

Our all-new 259DC is built on our exclusive, revolutionary high-performing ZPlane hull, providing max performance characteristics for any waypoint you're looking to get to. Roomy, stylish, and with accommodations and comfort for the entire family, this is the dual console you've been waiting for. Run to your favorite waterside restaurant, beach it for a day in the sun, relax in the bow or entertain your crew with our optional galley entertainment package that includes a stainless steel fridge, Kenyon grill, inverter, and shore power hook-up. There's room for a porta-potti porcelain head for extending your time out on the water as well. Bring the snacks, towels, and refreshments and get ready to make some incredible memories aboard our all-new 259DC.

269DC

DUAL CONSOLE

RAISING THE BAR

The 269DC is the perfect combination of engineering form, function and performance. It has all the style and comfort of a dual console, plus it can be equipped for any activity you enjoy on the water. The 269DC delivers a smooth and dry ride attributed to the Z-Plane Deep V Hull and ample deck space suited for family comfort and convenience. Stingray has raised the bar in the crossover market with the 269DC by delivering exceptional value and quality. Comfortable seating throughout the boat, a well-equipped optional cockpit galley, plenty of storage space, a large step-down head compartment and the deep cockpit will make your trips to your favorite destination effortless.

23 OCX

SPORT BOAT

THE “BERTH” OF SPEED

She looks fast just sitting still, and you'll be surprised just how quick and nimble she is out on the water. The twin sister to our already wildly popular 23 OSX open bow sport boat, this all-new 23 OCX cuddy sport boat is built on the same platform of style, comfort, and performance...but in a sleek enclosed bow version. Room down below to rest, sleep, and recharge from all the other boats you put in your wake.

1 Stainless Steel Hardware
Package items vary by model and may include:
- Gunnel Molding (White/Stainless)
- SS Horn Cover
- SS Cup Holders
- SS Windshield Supports
- SS Grab Handles
- SS Dash Rail
- SS Bimini Top Quick Connects

2 Galley Entertainment
Package include:
- Kenyon Grill w/ Inverter-Charger
- Shore Power Hook-up & Wiring
- SS Refrigerator
- Battery Tray added to Back of Ski Locker

3 Fishing Package includes:
- Raw Water Washdown
- Trolling Motor Harness
- Recirculating / Aerated Rear Well
- Fishing Seat w/ Base (except 173CC)

4 Fiberglass T-Top
Bottom Colors:
- Opt – Sky Blue
- Opt – Abaco Green
- Opt – Oyster
- Opt – Black
- Opt – Seaside Blue
- Opt – Black Cherry
